Our Commitment: Prepare, Protect & Respond

Risk Assessment & Transfer International is a consulting company employing highly skilled and trained individuals who have decades of experience in successfully advising corporate and sophisticated policyholders on asset protection, disaster response and insurance recovery. Risk Assessment & Transfer International works to resolve the adverse effects created by unknown or unsupported risk, and to provide a cohesive response should disaster occur. Our Firm provides the following services: Pre-Loss: risk assessment and analysis, insurance coverage review, risk management outsourcing, Gargoyle Archiving (secure web based access to your insurance and other contracts); Post-Loss: single source response and insurance recovery for disasters, access to experts and contractors, DARP non-recourse financing (capital before the insurance company pays) and insurance recovery experts. Gargoyle Archiving and DARP are registered service marks.
